Welcome to Virtual World Spine 2020

Dear colleagues and friends,

We are all witnesses to the dawn of a new educational era due to the novel coronavirus (covid-19) pandemic.

This is the year that all major congresses in all specialties, workshops and educational activities that require physical presence and face-to-face interaction have been cancelled. Apart from no-who can predict when the self and and we will be able to return to our usual everyday educational life!

On the other hand our era is also characterized by the vast expansion of internet and social media, the development of digital skills for the majority of population (at least for the so-called "developed" countries) and the concept of globalisation is more fitted to describe the globalisation of knowledge than other aspects of human society.

In most of the countries there were measures of social distancing, restriction of movement and travel and lockdown as response to detain the virus spread. During this period many of us decided that the online educational activities is probably the best reaction to the pandemic adverse effect. In medical education all the webinars emerged and became an everyday activity.

The WSLA executive board after the initial disappointment from the postponement of World Spine 9 in South Korea (from September 2020 to September 2021) decided to organize the 1st Virtual World Spine Congress .

As president of our society i am inviting you all to join us this incredible educational experience.

Ioannis Polychronakis

Ioannis Polychronakis, MD
President, WSvS (World Spinal Column Society)
