Welcome to European Spine Review & Cadaver Course 2019

Dear colleagues and friends,

It is my great pleasure to announce the upcoming “European Spine Review and Cadaver Course: Part 1 Cervical Spine” which will be held in Athens, Greece, in February 2019.

The workshop brings together spine specialists to hear research and discuss topics related to the treatment of cervical spinal disorders. Examine topics important to your practice, evaluate the latest research.

In Athens February 15 – 16, 2019, we will provide comprehensive lectures given by international experts, intensive discussions between participants and faculty members, and a special cadaver workshop for practicing approaches and new techniques in pain management and in cervical spine surgery.

We are looking forward to welcome neurosurgeons, orthopedic surgeons, spine surgeons and researchers from all over the world.

**Ioannis Polythodorakis, M.D.,**  
Chairman of European Spine Review and Cadaver Course  
President World Spinal Column Society
